RE: **RIN 1010-AD11**
Pipelines and Pipeline Rights-of-way
Request for Time Extension for Comments

Dear Sir/Madam:

ANR Pipeline Company, a TransCanada company, operates an extensive interstate natural gas transmission system, of which approximately 700 miles are offshore. This pipeline system receives natural gas from the major production areas of the Gulf Coast for transportation and sale to the Midwest markets of the United States. The operation of this pipeline system is subject to the requirements of Title 49 Code of Federal Regulation Parts 190, 191, 192, 193, and 199 and Title 30 Code of Federal Regulations Part 250, Subpart J, regarding Pipeline Rights-of-Way.

ANR Pipeline Company is preparing comments per the notice at Volume 72, No. 191 FR 56442. This Rulemaking is significant in its scope and complexity. The Administrative Burden of responding to the same has been underestimated, and it will take longer than the January 31 deadline to prepare complete comments. ANR Pipeline Company therefore requests the deadline for comments be extended from January 31, 2008 to March 31, 2008.

If you have any questions or require any additional information, please contact me at 832-320-5505.

Sincerely,

Vern Meier
Vice President, U.S. Pipeline Operations
ANR Pipeline Company
