

# PINC REVISION RECORDS

## PINC Team Meetings June 2001 & Sept 2001 – Published March 2003

### **Members in attendance:**

Tom Perry – New Orleans District GOMR  
Darrell Griffin – Houma District GOMR  
Maxie Lambert – Lafayette District GOMR  
Clarence Kershaw – Lake Jackson District GOMR  
Milford Cole – Lake Charles District GOMR  
John Sheive – Corpus Christi District GOMR  
Dale Roberts – Camarillo District POCS  
Ralph Vasquez – Camarillo District POCS  
Kyle Monkeliën – Alaska OCS Region  
Jack Leezy – Gulf of Mexico OCS Region  
Dick Giangerelli – Performance & Safety Branch, Hdqtrs.

The following is a listing of PINC's that were added, revised, or deleted:

### **Additions**

PINC D-165  
PINC D-166  
PINC D-167  
PINC D-168  
PINC D-169  
PINC D-170  
PINC D-171  
PINC D-172  
PINC D-173  
PINC D-174  
PINC D-175  
PINC D-223  
PINC D-224  
PINC D-225  
PINC D-244  
PINC D-274  
PINC D-312  
PINC D-313  
PINC D-314  
PINC D-315  
PINC D-316  
PINC D-327  
PINC D-453  
PINC D-462  
PINC D-463

### **Revisions**

PINC D-100  
PINC D-101  
PINC D-110  
PINC D-111  
PINC D-112  
PINC D-113  
PINC D-120  
PINC D-121  
PINC D-130  
PINC D-150  
PINC D-151  
PINC D-152  
PINC D-153  
PINC D-154  
PINC D-155  
PINC D-156  
PINC D-157  
PINC D-158  
PINC D-159  
PINC D-160  
PINC D-161  
PINC D-163  
PINC D-164  
PINC D-200  
PINC D-201  
PINC D-202

### **Deletions**

PINC D-162  
PINC D-206  
PINC D-230  
PINC D-255  
PINC D-284  
PINC D-286  
PINC D-293  
PINC D-303  
PINC D-304  
PINC D-310  
PINC D-323  
PINC D-325  
PINC D-333  
PINC D-409

Appendix 23	Revision								

The following is a detailed description of the changes made to each affected PINC on the PINC List:

### Drilling – Traveling Block

#### Revised PINC D-100

Change: PINC Statement, Authority, Definition, Inspection Procedure, and the Note were revised.

Rationale: Revisions to PINC Statement, Definition, Inspection Procedure, and Note were required to better comply with the requirements in the new Subpart D and to better describe the intent of the inspection. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-101

Change: PINC Statement, Authority, Enforcement Action, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to PINC Statement, and Inspection Procedure were required to better comply with the requirements in the new Subpart D and to better describe the intent of the inspection. The Enforcement Action and Noncompliance Statement were revised to address a potentially more hazardous situation that was not previously addressed. The Authority was revised to match the new Subpart D reference.

### Drilling – Directional Survey

#### Revised PINC D-110

Change: PINC Authority and Noncompliance Statement were revised.

Rationale: Revisions to the Noncompliance Statement, and Inspection Procedure were required to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-111

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to better comply with the requirements in the new Subpart D for the method of recording information. The Noncompliance Statement, and Inspection Procedure were revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-112

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to better comply with the requirements in the new Subpart D for the method of recording information. The Noncompliance Statement, and Inspection Procedure were revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Revised PINC D-113

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to better comply with the requirements in the new Subpart D for the method of recording information. The Noncompliance Statement, and Inspection Procedure were revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Drilling – Moving Drilling Rigs

Revised PINC D-120

Change: PINC Authority and Inspection Procedure were revised.

Rationale: Revisions to the Inspection Procedure were required to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Added PINC D-121

Change: PINC was added.

Rationale: New requirements in the new Subpart D for reporting movement of drilling units needed to be identified.

Drilling – ESD System

Revised PINC D-130

Change: PINC Statement, Authority, and Note were revised.

Rationale: Revisions to PINC Statement were required to better indicate what is to be inspected. The Note was changed to delete reference to the future inclusion in Subpart D of the requirement for testing of the ESD station. The Authority was revised to match the new Subpart D reference.

Drilling – Casing Program

Revised PINC D-150

Change: PINC Authority was revised.

Rationale: The Authority was changed to match the new Subpart D reference.

Revised PINC D-151

Change: PINC Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to Noncompliance Statement and Inspection Form Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Casing Program (cont.)

### Revised PINC D-152

Change: PINC Authority, Note, and Noncompliance Statement were revised.  
Rationale: Revisions to the Noncompliance Statement were required to better indicate what is to be inspected. The Note was revised to comply with the new Subpart D requirements. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-153

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised..  
Rationale: Revisions to the PINC Statement and the Inspection Procedure were required to better comply with the verbiage in the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-154

Change: PINC Authority and Inspection Form Statement were revised.  
Rationale: Revision to Inspection Form Statement was required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-155

Change: PINC Authority and Inspection Form Statement were revised.  
Rationale: Revision to Inspection Form Statement was required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-156

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised; and Note was added.  
Rationale: Revision to PINC Statement was required to improve clarity. The Note was added to provide supplemental information. The Inspection Procedure was revised to remove non-inspectable requirements. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Casing Program (cont.)

### Revised PINC D-157

Change: PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to Inspection Procedure were required to clarify what is to be checked and to remove reference to abandonment requirements. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-158

Change: PINC Statement, Authority, and Noncompliance Statement were revised.

Rationale: Revisions to PINC Statement were required to better conform to the requirements in the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-159

Change: PINC Statement, Authority, and Inspection Procedure were revised.

Rationale: Revisions to PINC Statement were required to better conform to the requirements in the new Subpart D and to incorporate the requirements of PINC D-162. The Inspection Procedure was revised to better indicate what is to be inspected in conformance with the requirements in the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-160

Change: PINC Statement, Authority, and Noncompliance Statement were revised.

Rationale: Revisions to PINC Statement were required clarify what is to be checked and to conform to the requirements in the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-161

Change: PINC Statement, Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Noncompliance Statement were required to better conform to the requirements in the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Deleted PINC D-162

Change: PINC was deleted and incorporated into PINC D-159.

Rationale: The requirements in PINC D-159 and PINC D-162 are so closely related that separate PINC's do not appear to be necessary.

### Drilling – Casing Program (cont.)

#### Revised PINC D-163

Change: PINC Authority, Note, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the Note and Noncompliance Statement were required to better conform to the requirements in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-164

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements in the new Subpart D. The Inspection Procedure and the Noncompliance Statement were revised to incorporate the abbreviation for “waiting-on-cement”. The Inspection Form Statement was revised to correct a typographical error. The Authority was revised to match the new Subpart D reference.

#### Added PINC’s D-165 thru D-175

Change: PINC was added.

Rationale: The PINC is required to address a new requirement in the new Subpart D.

### Drilling – BOP Systems and Components

#### Revised PINC D-200

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and the Note was deleted.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Note was deleted to reduce confusion. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Systems and Components (cont.)

Revised PINC D-201

Change: PINC Statement, Authority, and Noncompliance Statement were revised.  
Rationale: Revisions to the PINC Statement was required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-202

Change: PINC Statement, Authority, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the PINC Statement was required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-203

Change: PINC Authority, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the Noncompliance Statement and the Inspection Form Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-204

Change: PINC Authority and Noncompliance Statement were revised.  
Rationale: Revisions to the Noncompliance Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-205

Change: PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Deleted PINC D-206

Change: PINC was deleted and incorporated into PINC D-207.  
Rationale: The requirements in PINC D-206 and PINC D-207 are so closely related that separate PINC's do not appear to be necessary.

Drilling – BOP Systems and Components (cont.)

Revised PINC D-207

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D and to incorporate the prior requirements of PINC's D-206 and D-230. The Inspection Procedure was revised to delete the reference to PINC's D-230 and D-231. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-208

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and the Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-209

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-210

Change: PINC Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the Noncompliance Statement and the Inspection Form Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-211

Change: PINC Authority and Noncompliance Statement were revised.

Rationale: Revisions to the Noncompliance Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Systems and Components (cont.)

Revised PINC D-212

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-213

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-214

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-215

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-216

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Systems and Components (cont.)

Revised PINC D-217

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-218

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-219

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D references.

Revised PINC D-220

Change: PINC Statement, Authority, Enforcement Action, Note, Noncompliance Statement, and Inspection Form Statement were revised and a Note was deleted.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Enforcement Action and Noncompliance Statement were revised to better relate to the potential hazard addressed by the PINC. The Note was revised to better identify the type of valve addressed. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The note was deleted because of the potential confusion it caused. The Authority was revised to match the new Subpart D reference.

## Drilling – BOP Systems and Components (cont.)

### Revised PINC D-221

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and Definition was deleted.

Rationale: Revisions to the PINC Statement, the Inspection Procedure, the Noncompliance Statement, and the Inspection Form Statement were required to better conform to the requirements of the new Subpart D. The definition was deleted since it did not address all of the potential locking devices. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-222

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised and Note was deleted.

Rationale: Revisions of the PINC Statement was required to make it more useful to the MMS Inspector and to better conform to the requirements of the new Subpart D. The Note was deleted since it duplicated the revised PINC Statement. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Added PINC's D-223 thru D-225

Change: PINC was added.

Rationale: The PINC is required to address a new requirement in the new Subpart D.

## Drilling – Surface BOP System

### Deleted PINC D-230

Change: PINC was deleted and incorporated into PINC D-207.

Rationale: The requirements in PINC D-230 and PINC D-207 are so closely related that separate PINC's do not appear to be necessary.

### Revised PINC D-231

Change: PINC Statement, Authority, Note, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Note was revised to be more directly pertinent to this PINC. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Drilling – Surface BOP System (cont.)

#### Revised PINC D-232

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Drilling – Subsea BOP Systems

#### Revised PINC D-240

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-241

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-242

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-243

Change: PINC Statement, Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Subsea BOP Systems (cont.)

### Added PINC D-244

Change: PINC was added.

Rationale: The PINC is required to address a new requirement in the new Subpart D.

## Drilling – BOP Tests, Actuators, Inspections, and Maintenance

### Revised PINC D-250

Change: PINC Authority, Enforcement Action, Noncompliance Statement, and Inspection Form Statement were revised and Note was added.

Rationale: Revisions to the Enforcement Action and Noncompliance Statement were required to better relate to the potential hazard addressed by the PINC. The Note was added to provide information specified in the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-251

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-252

Change: PINC Statement, Authority, Enforcement Action, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Enforcement Action and Noncompliance Statement were revised to better relate to the potential hazard addressed by the PINC. The Note was revised to better identify the type of valve addressed. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-253

Change: PINC Statement and Authority were revised and Definition was added.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. A Definition of a term used in the new Subpart D was added. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Tests, Actuators, Inspections, and Maintenance (cont.)

Revised PINC D-254

Change: PINC Statement, Authority, Inspection Procedure, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Deleted PINC D-255

Change: PINC was deleted.

Rationale: This requirement is not contained in the new Subpart D.

Revised PINC D-256

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and Note was added.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. A Note was added to provide additional information relative to the new Subpart D requirements. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-257

Change: PINC Statement, Authority, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-258

Change: PINC Statement, Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Tests, Actuators, Inspections, and Maintenance (cont.)

Revised PINC D-259

Change: PINC Statement, Authority, Note, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Note, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-260

Change: PINC Authority and Inspection Form Statement were revised.

Rationale: Revisions to the Inspection Form Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-261

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-262

Change: PINC Statement, Authority, Enforcement Action, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Enforcement Action and the Noncompliance Statement were revised to better relate to the potential hazards addressed by the PINC. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-263

Change: PINC Statement, Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Tests, Actuators, Inspections, and Maintenance (cont.)

Revised PINC D-264

Change: PINC Statement, Authority and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement was required to improve clarity. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-265

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D and to incorporate the prior requirements of PINC D-286. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-266

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-267

Change: PINC Authority, Inspection Procedure, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Noncompliance Statement were required to clarify how to proceed with the inspection. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-268

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure and the Noncompliance Statement were revised to clarify how to proceed with the inspection. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Drilling – BOP Tests, Actuators, Inspections, and Maintenance (cont.)

Revised PINC D-269

Change: PINC Authority, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the Noncompliance Statement and the Inspection Form Statement were required to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – Surface BOP Tests

Revised PINC D-270

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to clarify how to proceed with the inspection. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-271

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-272

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-273

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and a Note was added.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to correct typographical errors. The Noncompliance Statement was required to delete supplemental information and this information was placed in a Note. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Drilling – Surface BOP Tests (cont.)

#### Added PINC D-274

Change: PINC was added.

Rationale: The PINC is required to address a new requirement in the new Subpart D.

### Drilling – Subsea BOP Tests

#### Revised PINC D-281

Change: PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-282

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-283

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised; the Definition was deleted; and the Note was added.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D and to incorporate the prior requirements of PINC D-284. The Definition was deleted since it provided unnecessary information. The Note was added to provide information pertinent to the new Subpart D. The Noncompliance Statement and the Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Deleted PINC D-284

Change: PINC was deleted and incorporated into PINC D-283.

Rationale: The requirements in PINC D-284 and PINC D-283 are so closely related that separate PINC's do not appear to be necessary.

### Drilling – Subsea BOP Tests (cont.)

#### Revised PINC D-285

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised and the Note was deleted.

Rationale: Revisions to the PINC Statement and Noncompliance Statement and Deletion of the Note were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Deleted PINC D-286

Change: PINC was deleted and incorporated into PINC D-265.

Rationale: The requirements in PINC D-286 and PINC D-265 are so closely related that separate PINC's do not appear to be necessary.

### Drilling – Well-Control Drills

#### Revised PINC D-290

Change: PINC Statement, Authority, Notes, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D, to incorporate the prior requirements of PINC D-293, and to remove extraneous information. The two Notes were combined to improve clarity and extraneous information was removed. The Noncompliance Statement and the Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-291

Change: PINC Statement, Authority, Inspection Procedure, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to remove extraneous information. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-292

Change: PINC Statement, Authority, Definition, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Definition were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Drilling – Well-Control Drills (cont.)

#### Deleted PINC D-293

Change: PINC was deleted and incorporated into PINC D-290.

Rationale: The requirements in PINC D-293 and PINC D-290 are so closely related that separate PINC's do not appear to be necessary.

### Drilling – Diverter Systems

#### Revised PINC D-300

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-301

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D and to incorporate the prior requirements of PINC D-304. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Revised PINC D-302

Change: PINC Statement, Authority, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Deleted PINC D-303

Change: PINC was deleted and incorporated into PINC D-327.

Rationale: The PINC D-303 was revised to better conform to the requirements of the new Subpart D, was moved to the topic "Surface Diverter System," and was re-numbered PINC D-327.

#### Deleted PINC D-304

Change: PINC was deleted and incorporated into PINC D-301.

Rationale: The requirements in PINC D-304 and PINC D-301 are so closely related that separate PINC's do not appear to be necessary.

## Drilling – Diverter Systems (cont.)

### Revised PINC D-305

Change: PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the Inspection Procedure and Noncompliance Statement were required to better conform to the requirements of the new Subpart D and to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-306

Change: PINC Statement, Authority, Inspection Procedures, and Noncompliance Statement were revised and the Note was deleted.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to improve clarity. The Note was deleted to remove extraneous information. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-307

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-308

Change: PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-309

Change: PINC Authority, Inspection Procedure, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Inspection Procedure were required to better conform to the requirements of the new Subpart D and to remove extraneous information. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Drilling – Diverter Systems (cont.)

#### Deleted PINC D-310

Change: PINC was deleted.  
Rationale: This requirement is not contained in the new Subpart D.

#### Revised PINC D-311

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the PINC Statement were required to improve clarity. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Added PINC's D-312 thru D-316

Change: PINC was added.  
Rationale: The PINC is required to address a new requirement in the new Subpart D.

### Drilling – Surface Diverter System

#### Revised PINC D-322

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.  
Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D and to incorporate the requirements previously addressed by PINC D-323 and PINC D-333. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

#### Deleted PINC D-323

Change: PINC was deleted and incorporated into PINC D-322.  
Rationale: The requirements in PINC D-323 and PINC D-322 are so closely related that separate PINC's do not appear to be necessary.

#### Revised PINC D-324

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.  
Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Surface Diverter System (cont.)

### Deleted PINC D-325

Change: PINC was deleted.  
Rationale: This requirement is not contained in the new Subpart D.

### Revised PINC D-326

Change: PINC Authority, Enforcement Action, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the Enforcement Action and the Noncompliance Statement were required to better relate to the potential hazards addressed by the PINC. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement was revised to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Added PINC D-327

Change: PINC was added.  
Rationale: The PINC, previously identified as PINC D-303, was revised to better conform to the requirements of the new Subpart D, was moved to the topic “Surface Diverter System” to better match the requirements addressed, and was re-numbered PINC D-327.

### Deleted PINC D-333

Change: PINC was deleted and incorporated into PINC D-322.  
Rationale: The requirements in PINC D-333 and PINC D-322 are so closely related that separate PINC’s do not appear to be necessary.

### Revised PINC D-334

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.  
Rationale: Revisions to the PINC Statement were required to improve clarity. The Inspection Procedure was revised to remove extraneous information. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Drilling Fluid Program

### Revised PINC D-400

- Change:** PINC Statement, Authority, Definition, Inspection Procedure, Note, Noncompliance Statement, and Inspection Form Statement were revised.
- Rationale:** Revisions to the PINC Statement, Definition, Inspection Procedure, Note, and Noncompliance Statement were required to better conform to the terminology used in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-401

- Change:** PINC Statement, Authority, Inspection Procedure, and Inspection Form Statement were revised.
- Rationale:** Revisions to the PINC Statement and Inspection Procedure were required to better conform to the terminology used in the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-402

- Change:** PINC Statement, Authority, Inspection Procedure, and Inspection Form Statement were revised.
- Rationale:** Revisions to the PINC Statement were required to better conform to the terminology used in the new Subpart D. The Inspection Procedure was revised to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-403

- Change:** PINC Statement, Authority, and Inspection Form Statement were revised and a Note was added.
- Rationale:** Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. A Note was added to provide information relative to the new Subpart D requirements. The Inspection Form Statement was revised to better indicate what is to be and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-404

- Change:** PINC Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.
- Rationale:** Revisions to the Inspection Procedure and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Drilling – Drilling Fluid Program (cont.)

Revised PINC D-405

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The PINC Statement, Inspection Procedure, and Noncompliance Statement were revised to conform to the terminology used in the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-406

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The Inspection Procedure and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-407

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-408

Change: PINC Statement, Authority, Inspection Procedure, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to incorporate the requirements previously addressed by PINC D409. The PINC Statement and Inspection Procedure were revised to conform to the terminology used in the new Subpart D. The Inspection Procedure and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Deleted PINC D-409

Change: PINC was deleted and incorporated into PINC D-408.

Rationale: The requirements in PINC D-409 and PINC D-408 are so closely related that separate PINC's do not appear to be necessary.

Drilling – Drilling Fluid Program (cont.)

Revised PINC D-410

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to conform to the terminology used in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-411

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-412

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The PINC Statement and Inspection Procedure were revised to better conform to the requirements in the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-413

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and a Note was added.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. A Note was added to provide information relative to the new Subpart D requirements and the Inspection Procedure was revised to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Drilling – Drilling Fluid Program (cont.)

Revised PINC D-414

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The PINC Statement and the Inspection Procedure were revised to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

Revised PINC D-415

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement were required to conform to the terminology used in the new Subpart D. The Inspection Procedure was revised to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

Drilling – Drilling Fluid-Handling Areas Classified as where Dangerous Concentrations of Combustible Gas May Accumulate

Revised PINC D-421

Change: PINC Authority, Definition, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Definition and the Inspection Procedure were required to conform to the terminology used in the new Subpart D and to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what may be shut-in. The Authority was revised to match the new Subpart D reference.

Revised PINC D-422

Change: PINC Statement, Authority, Definition, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to conform to the terminology used in the new Subpart D. The Definition and the Inspection Procedure were revised to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Drilling – Drilling Fluid-Handling Areas Classified as where Dangerous Concentrations of Combustible Gas May Accumulate (cont.)

Revised PINC D-423

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The PINC Statement, Inspection Procedure, and Noncompliance Statement were revised to conform to the terminology used in the new Subpart D. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Revised PINC D-424

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to conform to the terminology used in the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Revised PINC D-425

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to conform to the terminology used in the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected and to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

Revised PINC D-426

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to conform to the terminology used in the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Drilling – Drilling Fluid-Handling Areas Classified as where Dangerous Concentrations of Combustible Gas May Accumulate (cont.)

Revised PINC D-427

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Revised PINC D-428

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Revised PINC D-429

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure were required to improve the instructions concerning inspections. The Noncompliance Statement was revised to better indicate what is to be inspected. The Authority was revised to match the new Subpart D reference.

Drilling – Securing of Wells

Revised PINC D-440

Change: PINC Statement, Authority, and Inspection Procedure were revised and a Note was added.

Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. A Note was added to improve clarity. The Authority was revised to match the new Subpart D reference.

## Drilling – Supervision, Surveillance, and Training

### Revised PINC D-450

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-451

Change: PINC Authority, Note, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Note, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC D-452

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised and the Note was deleted.

Rationale: Revisions to the PINC Statement, Noncompliance Statement, and Inspection Procedure and deletion of the Note were required to better conform to the requirements of the new Subpart D. The Inspection Form Statement was revised to better indicate what is to be reported. The Authority was revised to match the new Subpart D reference.

### Added PINC D-453

Change: PINC was added.

Rationale: The PINC is required to address a new requirement in the new Subpart D.

## Drilling – Applications for Permit to Drill

### Revised PINC D-460

Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Nonconformance Statement and the Inspection Form Statement was revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

## Drilling – Applications for Permit to Drill (cont.)

### Revised PINC D-461

- Change: PINC Statement, Authority, Inspection Procedure, Noncompliance Statement, and Inspection Form Statement were revised.
- Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Inspection Procedure was revised to improve the instructions concerning inspections. The Noncompliance Statement and the Inspection Form Statement were revised to better indicate what is to be inspected and reported. The Authority was revised to match the new Subpart D reference.

### Added PINC's D-462 & D-463

- Change: PINC was added.
- Rationale: The PINC is required to address a new requirement in the new Subpart D.

## Hydrogen Sulfide

### Revised PINC's H-100 thru H-104

- Change: PINC Authority was revised.
- Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-105

- Change: PINC Statement and Authority were revised.
- Rationale: Revisions to the PINC Statement were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-106 thru H-120

- Change: PINC Authority was revised.
- Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-121

- Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.
- Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-122 thru H-127

- Change: PINC Authority was revised.
- Rationale: The Authority was revised to match the new Subpart D reference.

## Hydrogen Sulfide (cont.)

### Revised PINC H-128

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D.

### Revised PINC's H-129 thru H-132

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-133

Change: PINC Statement, Authority, and Inspection Procedure were revised.

Rationale: Revisions to the PINC Statement and Inspection Procedure were required to correct a typographical errors. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-134 thru H-151

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-152

Change: PINC Statement, Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the PINC Statement, Inspection Procedure, and Noncompliance Statement were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-153 thru H-160

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-161

Change: PINC Authority and Noncompliance Statement were revised.

Rationale: Revisions to the Noncompliance Statement were required were required to correct a typographical errors. The Authority was revised to match the new Subpart D reference.

### Revised PINC H-162

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

## Hydrogen Sulfide (cont.)

### Revised PINC H-163

Change: PINC Authority and Inspection Procedure were revised.

Rationale: Revisions to the Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-164 thru H-166

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-167

Change: PINC Authority, Inspection Procedure, and Noncompliance Statement were revised.

Rationale: Revisions to the Inspection Procedure, and Noncompliance Statement were required to improve clarity. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-168 thru H-173

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC H-174

Change: PINC Authority and Inspection Procedure were revised.

Rationale: Revision to the Inspection Procedure was required to correct a typographical error. The Authority was revised to match the new Subpart D reference.

### Revised PINC's H-175 thru H-181

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

## General - Operations

### Revised PINC's G-110 thru G-112

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Revised PINC G-115

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### General - Records

#### Revised PINC G-117

Change: PINC Authority and Inspection Procedure were revised.

Rationale: Revisions to the Inspection Procedure were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### General - Engines

#### Revised PINC's G-155 & G-156

Change: PINC Statement, Authority, Definition, Inspection Procedure, and Note were revised.

Rationale: Revisions to the PINC Statement, Definition, Inspection Procedure, and Note were required to better conform to the requirements of the new Subpart D. The Authority was revised to match the new Subpart D reference.

### General - Welding and Burning

#### Revised PINC G-300

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### Pollution - Prevention

#### Revised PINC E-105

Change: PINC Authority was revised.

Rationale: The Authority was revised to match the new Subpart D reference.

### . Appendices

#### Revised Appendix 23

Change: Sample calculation of the maximum pressure to protect the formation at the casing shoe was added.

Rationale: Additional information was required as a reference for PINC D-403 to ensure compliance with the new Subpart D requirements.
